EDUCATION

Indian Institute Of Information Technology Pune
Bachelor of Technology in Electronics and Communication Engineering

July 2020 - May 2024
CGPA: 7.1

Narayana Junior College
Intermediate in Maths, Physics and Chemistry

Jun 2017 - July 2019
Percentage : 96.8

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, C

Web Development: HTML5, CSS3, JavaScript, PHP, Node.js, RESTful APIs, MongoDB, Figma, CI/CD

Frameworks & Libraries: React.js, Next.js, Redux, Spring, Spring Boot, JDBC, JUnit, Prisma

Databases & Cloud: PostgreSQL, MySQL, Supabase, SQL, NoSQL, AWS, GCP, Git, GitLab, CI/CD

Core Skills: Data Structures and Algorithms, OOPs, DBMS, Core Java, Advanced Java, Problem Solving

Tools & IDEs: VS Code, IntelliJ IDEA, Eclipse, PyCharm CE, Sublime Text

WORK EXPERIENCE

Front End Developer Intern
1stop.ai, Work From Home

Nov 2021 - Jan 2022

- Designed and deployed a prototype of an **E-Commerce** website for purchasing clothes, sneakers, and more, increasing **user engagement** by **30**%.
- Leveraged **HTML, CSS, JavaScript**, and **Bootstrap** to develop a visually appealing and responsive front-end interface, reducing page load time by **25**%.
- Implemented modern typography, color schemes, and layout techniques, leading to a **20**% improvement in user retention.

SDE Intern
Klandr*, Work From Home*

Jul 2024 - Jan 2025

- Developed a responsive **CRM** application using **React.js, TypeScript, and Next.js**, improving sales workflows and enhancing lead conversion by **400**%.
- Optimized backend services using **SQL, PostgreSQL, Supabase**, and **Prisma**, reducing database query execution time by **35**%.
- Integrated **Google Cloud Storage** and **AWS**, reducing downtime by **50%** and ensuring seamless cloud deployment.
- Followed Agile methodologies and maintained clean, modular code using **Git** and **version** control workflows, reducing development errors by **30**%.
- Experienced in Agile development processes and working with **GitLab** and **Jira** for version control.
- Worked with real-time data streams and **WebSocket** integration during feature development.

PROJECTS

Moive Review Application 🔗

Mar 2024

- Developed a highly scalable movie review platform allowing users to post reviews, increasing user retention by **50**%.
- Built using **React.js, CSS, Spring Boot, Hibernate**, and **Node.js** with **MongoDB Atlas** for database management, ensuring 99.9% uptime.
- Implemented **GET** and **POST** API methods for efficient data retrieval and storage, improving review submission speed by **40**%.

ADDITIONAL TRAINING & CERTIFICATES

- **Scaler Certified -** DSA Fundamentals by Java 🔗
- **Simplilearn -** Java Full Stack Development 🔗
- **Udemy Certified -** Master SpringBoot & Hibernate 🔗
- **1stop Certifed -** Front End Development 🔗
- **Great Learning Certified -** UI/UX for Beginners 🔗

ACHIEVEMENTS

- **250**+ DSA problems solved on GFG
- **100**+ problems completed on LeetCode
- Best Major Project Award received (**5**th semester)
- **3-Star** rating earned on CodeChef
- Silver Medal awarded (District Cricket)
